Artists of the Digital Age

What We Do:

Neon is a group of talented and creative visual storytellers. We take complex ideas and turn it into simple and entertaining videos that everyone can understand. Even the best ideas need an explanation. So let us handle what we do best: telling awesome animated stories.

We make it our purpose to build effective and creative methods to communicate our client's needs. We've created more than a hundred 2D character explainer videos, 3D video graphics, typography animations and motion graphics.

Digital Artists

We produce top quality and entertaining visual productions for individuals, companies and organizations worldwide.

Creative Quality

Although our team moves fast, we do not compromise on creativity or quality. Our clients share their precious time with us and we want to return the favor by crafting custom-made, insightfully informative and mind-blowingly fun videos and games.

Startup Life

We are a startup animation production house headquartered in Dubai, the city of innovation. We are a passionate and talented team, we always strive to make the best videos with the biggest results. We move faster, more nimble and aren't afraid to take risks.

Services

The only limit is your imagination

Game Design

Custom and masterfully made video games that are electrifyingly entertaining! We take pride in creating striking, engaging digital experiences for your players. From Kooky characters to crazy visual effects, the galaxy's the limit with next big video game!

2D games These videos display images frame by frame in a gradual progression. These games have cartoon-like, flat animations for fun and simple games that gives a clean and sharp visual for players.

3D games Add a dimension of depth to your game that adds a real-life element to your player's experience.

Animations

Explainer Videos Short and compelling animated videos explaining a business, product or concept to your audience. By combining text, illustrations, motion, sound and narration you deliver the most powerful communication tool to your audience. We handcraft every element in your video to customize it to your needs, so the possibilities are endless!

Choose from static illustration animation or full character.

Whiteboard Videos Convert your message with motion animation as a dry erase board setting that comes alive to tell your story.

Corporate Videos Advertise your brand or business with a visually stunning corporate video complete with striking animations and motion graphics.

TV Commercial Ads Connect your audience to new discount offers and promotional deals through animated promotional and teaser videos. We help you advertise your product effectively.

YouTube Ads Make a viral video for the ever-growing YouTube audience. Use fun animations to deliver your message and captivate your audience.

Educational Videos (Internal /External)- Deliver your message effectively to your employees for orientation, new systems, rules, polices and procedures; or describe a product/service to your target audience.

Infographics

We help your audience understand relevant financial data and knowledge through entertaining, intriguing and customized infographics. A successful infographic isn't just about amazing design: it requires a gripping narrative with persuasive statistics and research. Whether you come to us with an idea or a full set of data, we take on projects of all sizes and matter.

Infographics videos:

Convert static data into moving objects in a simple and fun animation. Add entertainment value to your corporate meetings; also a great marketing tool for advertising, TV shows and programs. Make your data, idea or business easy to understand with simple and exciting animation. Your audience will thank you for it.
